Lashley Land and Recreational Brokers is by far the most prolific real estate brokerage in listing and selling recreational properties in the State of Nebraska.

How did we get to be such a dominant force in this niche? Because we HUNT!

Mike Lashley has been a lifetime fanatical hunter of all game in Nebraska… Waterfowl, Deer, Elk, Antelope, Wild Turkey… He has bagged them all. But his special passion is upland game. Mike knows what a property needs to support healthy populations of pheasant and quail, and he can advise landowners of specific steps to take to create more food sources, provide cover, and increase bird populations.

Mike can advise landowners about a variety of habitat enhancement, including:

- Optimum location and planting of food plots
- Improving Access to river bottom
- Surrogating Quail and Pheasant to increase population
